**Amendments to the Claims:**

This listing of the claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1-80 (Cancelled)

81 (Currently Amended). A ~~composition of matter~~homogenous semi-solid paste for spreading according to claim ~~80~~88, wherein said at least one flavoring agent is smoked salmon flavor or parmesan cheese flavor.

82 (Cancelled)

83 (Currently Amended). A homogenous semi-solid paste for spreading ~~composition of matter~~ according to claim ~~82~~88, wherein said at least one odorant is garlic scent or oregano scent.

84 (Previously Presented). A homogenous semi-solid paste for spreading consisting essentially of at least 50% by weight of fish oil and 50% or less of beeswax.

85 (Previously Presented). A homogenous semi-solid paste for spreading according to Claim 84 consisting essentially of at least about 80% by weight of fish oil.

86 (Previously Presented). A homogenous semi-solid paste for spreading according to Claim 85 wherein the amount of omega-3 polyunsaturated fatty acids in said fish oil is such that said composition comprises about 60% by weight of omega-3 polyunsaturated acids.

87 (Currently Amended) A homogeneous semi-solid paste for spreading ~~according to claim 85, further comprising,~~

consisting essentially of at least about 80% by weight of fish oil with the remainder being beeswax and at least one additional ingredient selected from the group consisting of odorants and flavoring agents.

88 (Currently Amended). A homogenous semi-solid paste for spreading according to Claim ~~87~~, ~~wherein said~~ 85, consisting essentially of at least about 80% by weight of fish oil, with the remainder being beeswax and at least one additional ingredient is selected from at least one odorant the group consisting of odorants and at least one flavoring agent agents.

89 (Cancelled)

90 (Currently Amended). A method ~~according to claim 89~~ for the preparation of a homogeneous semi-solid paste suitable for spreading and consisting essentially of from about 50% to about 80% by weight of fish oil, and beeswax, said method comprising:

(a) mixing fish oil with beeswax at 80°C under stirring until a homogeneous consistency is obtained; and

(b) cooling said mixture to room temperature, thus obtaining a homogeneous semi-solid paste containing from at least about 50% to about 80% by weight of fish oil, that can be stored at room temperature and/or by household refrigeration.

91 (Previously Presented). A method for the preparation of homogeneous semi-solid paste suitable for spreading consisting essentially of about 83% by weight of fish oil, said method comprising:

Amdt. dated February 23, 2004  
Reply to Office action of

(a) mixing 400 g fish oil with 80 g beeswax at 80°C  
under stirring until a homogeneous consistency is obtained;  
and

(b) cooling said mixture to room temperature, thus  
obtaining a homogeneous semi-solid paste containing about 83%  
by weight of fish oil that can be stored at room temperature  
and/or by household refrigeration.

92-102 (Cancelled)
